DATA FILES

Data are available in STATA (10.1) format. Data and electronic documentation are available on the MXFLS website.

Data is contained in folders, one for each household book. There are 11 folders. The folder names were assigned by the book prefix followed by the correspondent book initials. For example, in the Adult Household Member Characteristics Book, section Education is in `iiia_ed`.

The modules names were assigned by using the book initials prefix followed by the section denomination. For example, the section that corresponds to the cover of the Adult Household Member Characteristics Book is denominated `iiia_portad`.

This book, Adult Household Member Characteristics, has 14 sections and 21 modules. The modules are the following ones:
