

WEB PAGE USERS REPORT

The Mexican Family Life Survey (MxFLS) is a project that generates a multi-thematic and longitudinal database, which with a single scientific tool collects a wide range of information about long term socioeconomic, demographic and health indicators of the Mexican population.

The database and information found at www.ennvih-mxfls.org currently has over a thousand users¹. Panel A shows a distribution of users who visit the web page according to their country of origin. There are users from 46 different countries, of which Mexico and the United States are at a higher number of web page users, followed by the United Kingdom, Canada and France.
